FORMAT

4 Player Scramble, Gross & Net

Scoring Tees - DuPont: Men - Gold; Ladies - Green, Nemours: Men - White; Ladies - Red

Each team member tees off and the best of the four shots is selected for further play. The other balls are picked up and moved to the position of the selected one. This counts as one (1) stroke for the team since each has only hit once. **EACH player may PLACE the ball within 1 club length BUT no closer to the hole.**

The condition of the selected location must stay the same i.e., can't go from rough to fairway; fringe to green; hazard to rough, from out-of-bounds, etc. When you are on the green or fringe, the location should be within the width (approx. 3 inches) of a scorecard - no closer to the hole. Golfers should use a shoulder high drop if the ball selected is in a hazard.

Each team member hits a 2nd shot (this is team stroke #2). Again, a selection is made as to which shot is preferred and the process is repeated until one member of the team has 'holed out.' **(NOTE: If you tap the ball INTO the hole after you miss a putt but before your partner has attempted - the hole is FINISHED.)** Thus, a stroke is counted each time all players hit from a new location or one player 'holes out.'

Net Scoring: To determine the Net Score for each team, we will take the total Team Handicap (by adding all 4 players' handicaps together) and then take a percentage of that to calculate the Net Team Handicap. The Net Team Handicap will then be subtracted from the Team's Gross Score to calculate the Team's Net Score.
